ABOUT ME

I am graduating soon from Texas A&M and am looking forward to working in my field of passion, Web Development and Security.

I love learning and working on new technologies and frameworks. Most of my side projects have started in my desire to learn new tech stacks. I look forward to making a difference in the lives of many business owners by creating secure, modern, and sleek web apps.

SKILLS

7 / 10

Next.js, Django, Java, Cybersecurity

8 / 10

C# / SQL

9 / 10

Javascript / React

9 / 10

Agile Development

8 / 10

Team Leadership

EDUCATION

Texas A&M University / 3.701 GPA

2019 – May 2023

Cybersecurity Minor

Texas A&M University

2021 - 2023

High School Diploma

Stephen F. Austin HS

2015-2019

EXPERIENCE

Web Developer

Reynolds and Reynolds / College Station / May 2021 – August 2022

Associate level role in web development. Worked as part of a team using the waterfall development method.

- Co-architect for a more powerful, efficient user interface for creating and managing email communications (really impressive, call for more info).
- Used Agile development method to iteratively build and test new features.
- Improved a 15-year-old web application using more modern Javascript techniques.
- Created efficient and safe procedures in SQL for data retrieval and analysis
- Completed 100+ projects and bug fixes.

Teaching Assistant for Discrete Structures and Algorithms

Texas A&M University College of Engineering / 2020 and 2022 school year

Tutored students taking Discrete Structures and Algorithms, and worked alongside other TA's to help the class succeed.

- Graded 200 student's homework weekly
- Hosted private meetings for tutorial sessions

Projects

[dependabot-dashboard](#) (React, Agile) – Spotify Backstage plugin that allows users to view and manage vulnerabilities across a range of repositories on GitHub

[Bible Recall](#) (Next.js, Agile) – Web App utilizing SSR from Next.js to help users memorize scriptures.
